CONSERVATION Information supplied to the Panel is treated in strict confidence. Much of it is valuable for conservation purposes: please supply as much detail as possible on the form below, particularly with respect to locality. To achieve conservation of birds and sites, the Panel may, at its discretion, supply information to individual relevant officers of conservation bodies, unless you request otherwise in writing. Please think very carefully before imposing restrictions: sites have been lost in the past because observers have not told conservation bodies about them.

PUBLICATION Records will be summarised in the Panel's annual report. Localities will be mentioned only if they are already well known and there is public access to them (e.g. Avocets at Minsmere). The Panel may decide not to publish the County/Region or may not even publish the record at all.

CONFIDENTIAL

RARE BREEDING BIRDS PANEL

Sponsored by JNCC, RSPB and BTO

Standard Form

Recorder/Observer's name and address

Year

Species

County/Region

TOTAL POPULATION
If you are in a position to judge, please write in the larger box your best estimates of the numbers of pairs of this species breeding in the County/Region this year. If you are unsure of the numbers, give the likely range (e.g. 6-8).
Write the following codes for the reliability of your estimate in the small box: **a** based on good survey; **b** limited survey/experience; **c** guess.

PLEASE ALSO REFER TO NOTES ON REVERSE OF PRINTED FORM

RECORDER (County/Region) *Please tick box*

1. These records are known to him/her
2. May be passed on to him/her
3. Do not pass on to him/her
